

## Stainless Steel Polish 397g

Our Stainless Steel Polish is an effective and economical solution for stainless steel care and maintenance in residential and commercial environments. Only a small amount of product is needed to create a shiny finish.

Designed to remove fingerprints, grease, and water spatter, our Stainless Steel Polish helps preserve the factory finish of your appliances while erasing old or heavy accumulations of greasy film, food soils, or oil stains. Ideal for routine maintenance of stainless steel appliances and equipment.

### Product Features

- Cleans, polishes, protects stainless steel without scratching the finish
- Leaves no greasy film
- Use with a microfibre cloth
- Ideal for residential, commercial and industrial applications
