

7" Plastic Whitewash Brush

Our Plastic Whitewash Brush is ideal for the application of roofing tars, wall coating adhesives, roof and gutter coverings as well as foundation coatings.

This whitewash brush is an easy to use tool for applying coatings, sealers and stains to a variety of surfaces. It is available with 2, 4 or 5 rows of natural Tampico bristles for smooth application, acid resistant bristles and green flagged bristles. Each bristle is securely set into the hardwood block. This whitewash brush has a wide surface area that ensures maximum paint distribution. This low-maintenance tool is easy to clean and maintain.

Product Features

- Sturdy plastic construction
- Eyelet in handle for easy storage or hanging

- Easy to clean
- Effective tool for heavy-duty applications
