

Pluto Magnetic Broom - Wood Handle

Thanks to a magnetic system, the Pluto large broom can trap fine dust and particles. Ideal for wood, tile, laminate and vinyl surfaces.

This sturdy and high performance magnetic broom features super soft flat bristles that trap dust rather than push it around. Thanks to a magnetic system, it quickly picks up lint, dust, small debris as well as the finest particles. The bristles do not retain moisture, can be rinsed clean and dry quickly. This lightweight indoor broom comes with a 48" wood handle and is easy to manipulate.

Product Features

- Flat design

- Bristles made of soft, synthetic fibres
