
Swivel Scrub Brush

This universal swivel scrub brush is designed to effectively scrub decks, walls and base boards.

This swivel scrub brush features a rugged plastic block and bristles that do not absorb water. The bristles are also chemical resistant, making this tool hygienic and performant. The brush quickly swivels in any direction and can accomodate any standard threaded handle, like this [fiberglass one](#). You can use it on various surfaces including wood, concrete, and vinyl without scratching or damaging them.

Product Features

- Made of plastic
- Bristles are chemical resistant

- Block features a swivel connector compatible with threaded handles
- Will not scratch or damage surfaces
- Ideal for commercial, industrial and institutional applications
