

9" Vehicle Detail Brush

This 9" detail brush can help reduce hand fatigue thanks to its ergonomic handle with finger notches. It is an effective tool for a range of commercial and industrial cleaning applications.

Featuring an easy-grip handle with green flagged nylon bristles are extremely soft and effectively retains liquid making the brush ideal for cleaning and detailing areas such as grills, bumpers and rims on cars. It can also be used to clean delicate interior surfaces such as carpets and upholstery. The durable plastic construction won't crack or dent and the densely packed fill is chemical resistant. This detail brush is also available with a [20" long handle](#). Ideal for commercial and residential automotive detailing.
