

Scissor Mop Frame and Handle

The M2 Professional Scissor Mop Frame & Handle is a versatile cleaning tool constructed of a heavy-duty metal frame, with an adjustable width of up to 76".

The M2 Professional Scissor Mop Frame & Handle is a must-have cleaning tool for those who need to clean large open areas quickly and efficiently. These dustmops are made from high-quality materials and are designed to pick up dirt and debris quickly and efficiently. They are also easy to clean, making them a cost-effective solution for your cleaning needs.

One of the most notable features of the M2 Professional Scissor Mop Frame & Handle is its ability to span a maximum width of 76". This feature allows you to adjust the mop frame and handle to suit various widths, making it a versatile tool.

It can also adjust for easy passage through narrow doorways. This means you can use it to clean different areas of your facility without having to worry about navigating around tight corners or obstacles.

Product Features

- Adjustable width up to 76"
- Easy passage through narrow doorways
- Suitable for use in large warehouses, gymnasiums, airports, and other open large areas
- Durable construction and high-quality materials
- Easy to clean and maintain
