

Disposable Microfibre Cloths - 12"x12"

M2 Disposable Microfiber Cloth helps reduce cross-contamination by removing 99.7% viruses and bacteria. Encourages cleaning with new cloths for each task.

Our 12" x 12" disposable microfibre cloths are crafted from tear resistant microfibre material and boast unparalleled cleaning capabilities. They effectively trap and lift dirt, dust, and germs from surfaces, leaving them sanitized. With M2 Disposable Microfibre Cloths, each cleaning task is performed with a fresh cloth, reducing the risk of transferring bacteria from one area to another.

Ideal for hospitals, foodservice, offices and commercial settings, these disposable microfibre cloths are versatile. They provide a safe and efficient cleaning experience that promotes a healthier environment for everyone. The 12" x 12" size is carefully chosen to strike the perfect balance between convenience and functionality. It's large enough to cover substantial surface areas in one swipe, yet compact enough to be easily maneuvered around tight spots and corners.

Upgrade your cleaning practices, reduce cross-contamination risks, and enjoy the convenience of disposable cloths that deliver outstanding results. Also available in a roll format as the [Q-Star Microfibre Roll](#).
