

24" Micro-PET Looped Dust Mop

Our MicroPET™ Dust Mop with looped ends is environmentally responsible and contributes to a positive company image, as well as a cleaner living and working space.

The MicroPET™ Looped-End Dust Mop combines eco-friendly materials with high-performance cleaning. Constructed from a blend of microfiber and recycled PET plastic, its dense yarn delivers the same superior cleaning results as a traditional dust mop while supporting environmentally responsible practices.

More durable than cotton, the MicroPET™ Dust Mop is fully launderable and requires no special treatment. It is compatible with both [Clipper Frames](#) and [Snapper Frames](#), offering a versatile and reliable solution for professional dusting applications.

Micro-PET Dust Mop - Product Features

- Yarn made of microfiber and PET recycled plastic

- Sturdy polyester backing with reinforced stitching
- More durable than cotton
- Does not require any treatment
