

24" Micro-PET Looped Dust Mop

Our MicroPET™ Dust Mop with looped ends is environmentally responsible and contributes to a positive company image, as well as a cleaner living and working space.

Eco-friendly and effective, our MicroPET™ Dust Mop with looped ends is made with a blend of microfiber and PET recycled plastic. The dense yarn provides the same excellent level of cleanliness as a regular dust mop while being environmentally responsible. Versatile and more durable than cotton, this mop is fully launderable and does not require any treatment. Can be used with either our [Clipper Frames](#) or [Snapper Frames](#).

Micro-PET Dust Mop - Product Features

- Yarn made of microfiber and PET recycled plastic

- Sturdy polyester backing with reinforced stitching
- More durable than cotton
- Does not require any treatment
