

MicroLoop Microfiber Flat Mop

Optimal for damp and wet mopping applications, the MicroLoop Microfiber Flat Mop removes dust, dirt, and microbes from your floors. Ideal for healthcare, commercial and institutional building maintenance.

The MicroLoop Microfiber Flat Mops offers many advantages: it's made of 100% microfiber which will clean better than traditional mops with the use of less chemicals. Can easily be used with any collapsible or pocket style flat mop frame. Easy to attach to a mop head thanks to a durable polyester backing. The pad is also highly machine washable and reusable. Ideal for healthcare and commercial maintenance. Attach the MicroLoop Microfibre Flat Mop to the [Universal Flat Mop Frame](#) and the [Telescopic Aluminum Handle](#) to start cleaning surfaces. Wring out excess water from your mop with the [Duo-Chamber Mop Bucket with Roller Wringer](#) and keep your floors sparkling clean.
