

MicroFibre Charging Trolley - Medium

Featuring a robust 3 shelves design, this MicroFibre Charging Trolley is a great tool to transport microfiber flat mopping items for effective cleaning in commercial and industrial applications.

This lightweight, yet sturdy trolley is made of strong resilient tubing. It can carry up to 3 mop boxes of any size and has large durable wheels. Easy to maneuver, this versatile cart has an impressive capacity and is a must-have for commercial and industrial applications. Simply tilt the trolley backwards to easily move it around. Also available as the [Small Microfiber Charging Trolley](#) with 2 levels instead of 3.

Product Features

- Made of durable tubing
- Can carry three mop boxes
