

60" Threaded Fiberglass Handle - White

Use this broom handle featuring a sturdy fiberglass construction and threaded end in environments where hygiene is a priority like food service, hospitality, and healthcare.

Sturdy and versatile, this 60" handle is made of fiberglass and does not absorb moisture and bacteria. It features a standard

threaded tip compatible with squeegees, broom heads, brush blocks and other tools where high sanitary standards are required. This durable broom handle also has a cap with hanging hole for easy storage. Use this threaded handle with a [24" Food Service Push Broom](#), a [9" Tank Cleaning Brush](#) or any other threaded tool.

Product Features

- Wood construction
- Cap with hanging hole
- Threaded end
- Compatible with a variety of M2 products
- Ideal for commercial and industrial applications
