

## 3" Glazing Brush - White

Brushes made with 2" long soft PBT bristles. Mainly used in the baking industry and in general food processing areas.

The 3" Glazing Brush in white is a versatile kitchen tool designed for basting foods, oiling bakeware, waffle irons, and griddles. Its plastic handle offers a comfortable grip, ensures durability and easy cleaning. The glazing brush is made with soft PBT bristles that offer excellent heat and chemical resistance. The PBT material prevents bacteria accumulation and spreading. This brush is also available in the [2" format](#) which is HACCP compliant.

### Product Features
