

This Microfiber Dusting Sleeve is ideal for cleaning vents, furniture, uniquely shaped fixtures, windows and door frames. It is highly effective for removing dust, dirt, and grime.

This Microfiber Dusting Sleeve can be used with one of our frames for high dusting and to clean difficult-to-reach areas. This sleeve collects and holds dust and dirt mechanically and electrostatically and slides on and off the wand easily for laundering and replacement. It can be used for wet or dry cleaning.

Product Features

- Made of microfiber
- Duster sleeve is easily removable, reusable, and replaceable
- Fully launderable
- Can be used wet or dry
- Improves cleaning efficiency and performance in tight spaces
- Ideal for residential, commercial and institutional use
