

Manual Lotion Soap Dispenser

With a stylish design, this soap dispenser is made from ABS plastic, has a push type dispensing valve and a bulk loading feature.

With a generous 1,000 ml capacity, you'll enjoy long-lasting use before refilling the Manual Lotion Soap Dispenser. The push-style pump guarantees effortless dispensing, promoting cleanliness and convenience. Crafted from durable ABS plastic, this dispenser ensures lasting performance, making it a reliable choice for any environment. Its stylish design complements any setting, featuring a sight window for easy refill monitoring. Hassle-free installation with foam tape and screws, included in the package. Rest assured with the lockable but keyless feature, ensuring a certain level of security and control.

Also available as an [automatic lotion soap dispenser](#) or with a [foam soap option](#).
