
Metal Soap Dispenser Stand

Opt for this metal soap dispenser stand to improve workplace health and safety as well as a central location for hand sanitizing.

This sturdy soap or sanitizer dispenser stand is made of metal and features a universal design that can accommodate a variety of dispensers. The heavy round base provides excellent stability and can be placed anywhere for centralized hand hygiene. An excellent choice for office buildings, reception areas, hotels, universities and schools, health care facilities, stores, and other public areas. Can be paired with the [Auto Lotion Soap Dispenser](#) or the [Auto Foam Soap Dispenser](#).

Product Features

- Made of heavy-duty steel
- Universal design for mounting various dispensing products
- Built-in drip tray to catch any excess liquid
- Easy to clean and maintain
- The base, post, and plate can be easily assembled without the use of tools
