

Ceiling Fan Dusting Brush

Easily dust and clean ceiling fan blades at home, at the office or in institutional environments with this ceiling fan dusting brush.

This ceiling fan dusting brush features a circular shape and a strong and durable wire frame with PVC bristles. Use it with a long handle or a [metal threaded telescopic handle](#) to trap and hold dirt. The duster slides over fan blades to clean top and bottom at the same time while the split tips attract and lock in fine dust and dirt. Ideal for residential, commercial and institutional applications.

Product Features

- Wire frame with PVC bristles
- Circular shape to clean the top and bottom of the blade at the same time

- Split tips attract and lock dust
- Fits onto telescopic poles
