

Pipe / Duct Cleaning Brush

Cleaning between and around pipes is made easier with the curved design of this pipe cleaning brush.

This heavy-duty pipe cleaning brush is made of wire and polypropylene bristles. The bendable, circular design makes it easy to clean inside and around pipes. Use it with a long handle or [telescoping pole](#) to avoid working with a ladder. Ideal for residential, commercial and institutional applications.

Product Features

- Wire frame with polypropylene bristles

- Circular shape to clean inside and around pipes
- You can use it with a long handle or telescoping pole
- Compatible with standard Acme handle with adapter
