
Brass Squeegee Channel with Rubber

Solid yet lightweight, this brass channel with a rubber blade provides balance and weight for precision window cleaning.

Lightweight and easy to install, this brass channel comes with a rubber blade secured by a clip at either end to help prevent slipping and stretching. This high-quality squeegee channel provides durability and performance and is the designated choice for janitorial services. Attach it to a [brass window squeegee handle](#) for a perfect combo. Also available in [stainless steel](#).
