
46" Food Processing Paddle

This heavy-duty polypropylene 46" Food Processing Paddle meets all HACCP requirements and is made of durable polypropylene.

Mix ingredients and scrape vats of soup and sauces in commercial or industrial environments with this tough and durable Food Processing Paddle. It features a seamless, sanitary, one-piece polypropylene construction with a long handle that can reach deep into tall pots. Non-stick and easy to clean, this paddle is rust-proof and will last for years.
